

How to make your own prayer tree

Pray for our teams and the people they serve as they work to bring the Bible to life

Things you will need:

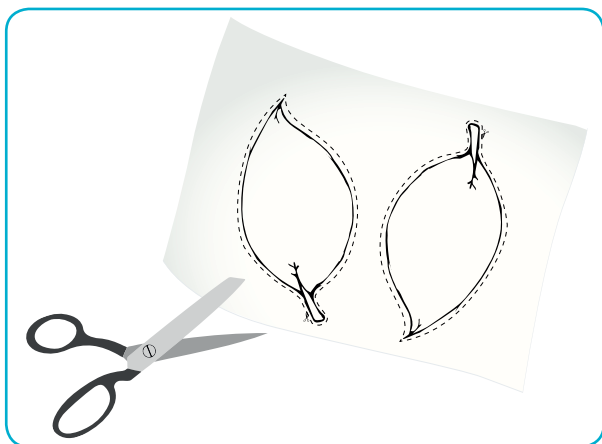

- A branch
- A plant pot or container
- Stones / sand or alternative material to fill the pot
- Prayer leaves
- A hole punch
- Scissors
- Ribbon or string
- Pens / pencils

1 Take the branch, strip the leaves off of the branches and cut the smaller branches near the base so it can fit in the pot.

2 Put the branches into the plant pot and fill the pot with stones, sand or whatever else you are using so the branches are able to stand up in the pot.

3 Cut out the prayer leaves. You can use the template provided or create your own. Punch a hole in the top of each leaf and string a ribbon through it. Tie it into a small knot at the top to create a loop.

4 Place your finished prayer tree, blank leaves, pens and pencils in a prominent position in your home, church or workplace. Invite people to write a prayer for our teams and the people they serve as they work to bring the Bible to life!
